

MIT5003 Wireless Networks & Communication - 2019SS

Research Study

Submission Due Date: 17/01/2020 before 5 pm

Submission Guidelines:

All submissions are to be submitted through turn-it-in. Drop-boxes linked to turn-it-in will be set up in the Unit of Study Moodle account. Assignments not submitted through these drop-boxes will not be considered.

Submissions must be made by the due date and time.

The turn-it-in similarity score will be used in determining the level if any of plagiarism. Turn-it-in will check conference web-sites, Journal articles, the Web and your own class member submissions for plagiarism. You can see your turn-it-in similarity score when you submit your assignment to the appropriate drop-box. If this is a concern you will have a chance to change your assignment and re-submit. However, re-submission is only allowed prior to the submission due date and time. After the due date and time have elapsed you cannot make re-submissions and you will have to live with the similarity score as there will be no chance for changing. Thus, plan early and submit early to take advantage of this feature. You can make multiple submissions, but please remember we only see the last submission, and the date and time you submitted will be taken from that submission.

Your document should be a single word or pdf document containing your report.

This research study requires ***in-depth reading*** and ***analysis*** of a single specific topic. This one topic can be of your choice, but the topic must have been covered in this course.

You require to take ***one*** research paper of that topic and make a small report on that research paper which should contain the following:

- Introduction to the topic
- Introduction to that paper, their main work.
- Detail description of the methodologies employed in that paper.
- Comparison of the results reported in that paper with others.
- Your comments on the advantages/disadvantages/superiority of that paper's methodology.
- Suggest your changes/future-directions for that paper to improve it (if any).
- Conclusion.
- References.

The research paper you need to choose should be published work in ***well-reputed Journals or Conferences***.
